

## **The 2008 Neighborhood Headquarters Project**

Next fall, Democrats in every SC county will again establish Neighborhood Democratic Headquarters at their homes or small businesses as a visible sign of the Democratic campaign and a way to distribute information about our candidates. We're organizing HQs now so that we can present our nominees with a Neighborhood Headquarters organization that can help them win.

**This is a key part of our campaign to win both the White House and our state and local offices.**

-----**Sign up now!**-----
